

Second Announcement (Bulletin No. 2)

32nd International Conference on Coastal Engineering

(ICCE 2010)

Shanghai, China

June 30 – July 5, 2010

Invitation to ICCE 2010

The Local Organizing Committee of ICCE 2010 together with the Chinese Ocean Engineering Society warmly invite you to attend the 32nd International Conference on Coastal Engineering, hosted by Nanjing Hydraulic Research Institute and Shanghai Jiaotong University, at the Shanghai International Convention Center in Shanghai, China on June 30 to July 5, 2010. The conference is being organized under the auspices of the Coastal Engineering Research Council (CERC) of the Coasts, Ocean, Ports and Rivers Institute (COPRI) of the American Society of Civil Engineers (ASCE).

The Shanghai International Convention Center, having another name as Oriental Riverside Hotel, is the first 5-star convention hotel located in the heart of Lujiazui district, Shanghai's financial and trade center, southwest to the Oriental Pearl TV Tower, and adjacent to the site of [World Expo 2010 Shanghai](#). It is accessible from all parts of the city with various modern modes transportation. The hotel has 260 well-furnished guestrooms, comprehensive recreational facilities and meeting venues. A number of nearby hotels will be available to meet the different needs of participants.

Shanghai is the largest economic center and an important port city in China, with a land area covering 6,340 square kilometers and a population of over 16 million people. More than 100 foreign countries and regions have investments in some local projects, taking advantage of the 74 deepwater berths and 20 international container piers at the Shanghai Port. The Yangshan International Deep Water Port under construction is expected to give a modern twist to the port city. Shanghai is also a prominent historical city in China with rich cultural heritages. The vintage western style buildings on the Bund and the modern Lujiazui financial center in Pudong (to the east of the Huangpu River) reflect on each other over the Huangpu River.

I sincerely welcome you to ICCE 2010 and look forward to meeting you in Shanghai in June/July 2010.

Prof. Xie Shileng, LOC Chairman, ICCE 2010

CONFERENCE SUBJECTS

Original papers are invited on theory, measurement, analysis, modeling and practice for the following topics. Practical papers detailing the design, construction and performance of case studies on coastal projects are encouraged.

Coastal Processes

Wave theories and wave transformation, tides and tidal dynamics, storm surges and extreme events, transport processes, sediment transport, coastal erosion, shoreline changes and scouring

Coastal, Shore and Estuarine Structures

Planning, design, construction, performance, optimization and maintenance, wave-structure-soil interactions

Ports, Harbours and Waterways

Planning, design and construction of ports, deepwater terminals and waterways, siltation, management and optimization of dredging, ship impacts

Coastal Environment

Coastal pollution, recreation, water quality, wetlands and estuaries, environmental impacts and compensation, climate change, coastal eco-hydraulics

Coastal Risks

Coastal risk sources, coastal breaching, flood risk management and strategies, assessment of coastal risks

Coastal Development

Coastal zone management, coastal energy, navigation and transportation, monitoring, data management, coastal information systems, sustainability of coastal projects, coastal protection concepts

Key Dates

1 Oct. 2009 Receipt by CERC Secretary of one (1) copy of the two-page summaries of proposed papers.

15 Jan. 2010 Notification of acceptance of summaries by CERC Secretary.

1 March 2010 Deadline for Abstracts-in-Depth and registration of paper and poster presenters.

1 May 2010 Abstracts-in-Depth are online.

30 June to 5 July 2010 ICCE 2010 CONFERENCE

15 Aug. 2010 Manuscripts of complete papers should be received by CERC Secretary.

Preliminary Program

Wednesday, June 30, 2010 Registration and Welcome Reception

Thursday, July 1, 2010 Conference Opening and Technical Sessions

Friday, July 2, 2010 Technical Sessions

Saturday, July 3, 2010 Technical Sessions and Technical Tours

Sunday, July 4, 2010 Technical Sessions

Monday, July 5, 2010 Technical Sessions, Conference Closure, Conference Dinner

Tuesday, July 6, 2010 Post-Conference Tour

Technical Tours

Technical tours will be organized for interested participants on the afternoon of Saturday, July 3, 2010. The tours will include the Deepwater Channel Project of the Yangtze Estuary, the Yangshan International Deep Water Port Project, the Harbor of Shanghai and key sites of World Expo 2010 Shanghai. Detailed information will be available soon on the conference website.

Technical Exhibition

ICCE 2010 will provide technical exhibition facilities to present your products, your services, your knowledge, and your organizations to coastal engineers worldwide. The exhibition area will be on the first floor of the venue, adjacent to session rooms. Participation in the exhibition is open to all companies and institutions providing services in coastal engineering. Those interested in being exhibitors at ICCE 2010 may contact Mr. Ge Jiufeng (jfge@nhri.cn) for further information.

Final Call for Papers

Prospective authors are invited to submit papers dealing with the conference subjects or related topics. An author cannot be listed as the first author on more than one paper or present more than one paper at the conference. Every paper to be presented at the conference needs a full registration before March 1, 2010. Papers must be presented at the conference in order to be included in the Proceedings to be published after the conference. To submit abstracts (summaries of papers) to ICCE 2010, enter your abstract title, subject and author information at the following website:

<http://chl.erdc.usace.army.mil/chlconf/>

This website will automatically provide you with an abstract number when you submit your abstract information. Next, submit your abstract by email to icce@usace.army.mil in PDF-format (1 MB limit) with the abstract number in the email subject line. Abstracts must be in English, maximum two pages, including figures, tables and references. The abstract should include titles, affiliations and complete addresses, including fax and email, of all authors. Please underline the name of the author to whom correspondence should be addressed. If authors do not have email access, abstracts may be mailed to

Dr. Jane McKee Smith

Coastal Engineering Research Council, ASCE
Engineering Research and Development Center
3909 Halls Ferry Road, HF-CS
Vicksburg, MS 39180-6199 USA

Fax copies will not be accepted.

Abstracts must be received by October 1, 2009.

Authors will be notified of the status of their summaries in January 2010. Accepted authors will receive instructions for preparing an Abstract-in-Depth for publication. A digital Book of Abstracts-in-Depth will be distributed at the conference.

Bulletin No. 3 (Third Announcement) and the conference website will provide ongoing information on the conference.

Please note the official conference language is English.

Presentation and Discussion of Papers

More than 480 presentations by authors from around the world will be included in the technical program in five or six parallel sessions. A total time of 20 minutes including 5 minutes for discussion is allocated for each presentation. Every paper to be presented at the conference needs one full registration before March 1, 2010.

Book of Abstracts-in-Depth

Authors of accepted papers and posters must provide a final version of their Abstracts-in-Depth by March 1, 2010. The deadline is firm. Authors will be informed about instructions for producing a camera ready manuscript of the Abstract-in-Depth on the conference website by Jan. 15, 2010. Participants will be informed how to download the Abstracts-in-Depth before the conference. Digital Books of Abstracts-in-Depth will be distributed to full-registration participants at the conference.

Proceedings

Authors of orally presented papers must provide a final version of their paper by August 15, 2010 to be included in the Proceedings. Authors will be informed about instructions for producing a camera ready manuscript on the conference website by April 1, 2010. The deadline for the receipt of manuscripts, namely August 15, 2010, is firm and late manuscripts may be returned. The Proceedings will be published by the Coastal Engineering Research Council of the American Society of Civil Engineers, and will be shipped to fully registered participants.

Technical Poster Session

In addition to technical paper presentations, up to 50 technical poster papers are planned for display and

presentation in the conference. Each poster has 5 minutes for presentation and 2 days of display in the poster area. The poster papers will be published on the conference website. Every poster paper to be presented at the conference needs one full registration by March 1, 2010.

Contact Information

For further information on ICCE 2010, please contact us or subscribe to the ICCE 2010 Mailing list:

ICCE 2010 Secretariat
Nanjing Hydraulic Research Institute
223 Guangzhou Road
Nanjing 210029, China
Phone: 86-25-85828112, 85828116
Fax: 86-25-83734321
Email: icce2010@nhri.cn
Website: <http://www.icce2010.cn>

Organizer:

Chinese Ocean Engineering Society

Under Auspice of:

Coastal Engineering Research Council of the Coasts, Ocean, Ports and Rivers Institute of the American Society of Civil Engineers

Hosts:

Nanjing Hydraulic Research Institute
Shanghai Jiaotong University

Supporting Institutions:

China National Natural Science Foundation
China Communications Construction Company (Group)
Dalian University of Technology
East China Normal University
Hohai University
Ocean Engineering Co. of China Petro Group
Offshore Oil Engineering Co. of China National Offshore Oil Corp.
Shanghai Port Authorities
Tianjin University
Yangtze Estuary Waterway Administration Bureau, MOC
(To be added)
